

# Big Lips

Leon Russell

When I first heard you on the telephone  
You were so sexy, I was all alone  
Even though I had my hands full  
I had to come, you're so delectable When I found you in the bowling room  
Your marveled lips, they were in full bloom  
It was so hard, I had to unzip  
And just get a taste of those big lips Girl, I gotta say, you got big lips  
And when you touch me with your fingertips  
You make me wanna see the sweet hips  
And just get a taste of those sweet lips I couldn't eat, get you off my mind  
Spent every dollar I could ever find  
To give you pleasure on the telephone  
I had to take it to the end zone  
When I finally really got you home  
You carbonized my chromosomes  
We went to town and really let it rip  
I just had to get to those big lips Girl, I gotta say, you got big lips  
And when you touch me with your fingertips  
You make me wanna see the sweet hips  
And just get a taste of those sweet lips x2 When I first heard you on the telephone  
You were so sexy, I was all alone  
Even though I had my hands full  
I had to come, you're so delectable When I found you in the bowling room  
Your marveled lips, they were in full bloom  
It was so hard, I had to unzip  
And just get a taste of those big lips  
Girl, I gotta say, you got big lips  
And when you touch me with your fingertips  
You make me wanna see the sweet hips  
And just get a taste of those sweet lips
