

# BAD VIBRATIONS

## MADEMOISELLE YULIA

Can you tell a wish from a spell? A hug from a lie?

They both make you feel so gone

We warned you from harm again

Your beating hearts againWe made love in June

I heard it from you

You were my best friend

You used my nameHit hard with harm, she loves to off you then yawn

Never disarm, you know she loves to be drawn

You're leaching her friend

I'm feeling down againWe made love with a few

I took it from you

You were my worst friend

I felt that wayBraiding her hair, you can tell her from here

Drink her last tear, yeah, you die for your dear

Bad vibes around her

She's eating our hearts againWe made love in June

I heard it from you

You were my best friend

You used my nameInside, outside

Inside, outside

Inside, outside

Inside, outsideInside, outside

Inside, outside

Inside, outside

Inside, outsideInside, outside

Inside, outside

Inside, outside

Inside, outside
