

# Intro

## Missing Heart

Millions of light years away  
In the darkness of the universe  
The sound of silence is flowing through space  
Only dreams will ever fly that far  
But human beings will never discover  
The secrets hidden on the edge of nowhere  
Listen to the signals of mystery  
Listen to the whispering echoes of life out there  
Listen to the music of "missing heart"  
It's pure mystery
