

# G.A.D.

## Endo

I don't wanna be me, I just wanna be free  
I don't wanna be me, I just wanna be free  
Going down the ozone, lookin' for a new home  
Tryin' to cope with the madness, future crisis  
Choked up, I can't breathe  
Loss of control, what the fuck's wrong with me?  
Paranoia, the levels are dropping  
Some thing's dying within my coffin  
Slave to my own enemy, can't you see?  
I don't wanna be me, I just wanna be free  
I don't wanna be me, I just wanna be free  
Eyes of unreality, notion of consciousness  
Got to get grounded before they come for us  
Pose for another shot, my thoughts are broken  
Impending loss is what I'm holding on to  
Got to make my way to the fire that burns my flame  
King to my own enemy, can't you see?  
I don't wanna be me, I just wanna be free  
I don't wanna be me, I just wanna be free  
I just want to be free
