Could U Be

Shonlock

VERSE1
Early in the morning when I wake up im
feeling alright im on the right side today
glowing with a gusto feeling like a hero hey
Even when I wanna turn away
do my thing I hear you say no
How could you leave me I make it easier

(CHORUS)

If the sky was falling I bet you could keep me alive
Thought I heard you calling caught me by surprise
Could u be all i've ever wanted

Could you be all I needed
Could u be all i've ever wanted
Could you be all I needed

VERSE2
I don't know how to feel right now
Got me on a cloud getting harder to look down but hey
The view from up here is like crystal clear..clear
And i seem to always want u around
Life was upside down
I was found in the lost and found
topsy turvy living real dirty
You picked me up I was hurting

(CHORUS)
If the sky was falling I bet you could keep me alive
Thought I heard you calling caught me by surprise

Could u be all i've ever wanted
Could you be all I needed
Could u be all i've ever wanted
Could you be all I needed

VERSE3
I feel good glad to get to know you better
Been reading your scarlet letter

Its helping me through whatever your
pretty clever might I add to it all
How you stood by me tall
even when I dropped the ball
Went A.W.O.L. for a small got me thinking is this all
could this really be that all worth my everything and all
should i stall naw you deserve a round of applause
cause you've been my Tylenol
I just recognized it yall....man.

(CHORUS)
If the sky was falling I bet you could keep me alive
Thought I heard you calling caught me by surprise

Could u be all i've ever wanted
Could you be all I needed
Could u be all i've ever wanted
Could you be all I needed
