

Atmospheres

Wimple Winch

Kiss so cool, it takes my breath
Love so hot, scares me to death, yeah
Don't you know you're too much
For one man's mind baby?
The love you've got
It's so hard to find now

Baby your love
Makes me stay around, yeah

It's cold outside
Don't wanna knee rug
You're holding me tight
It's so good to see, yeah
The warmth of your love
It makes me wanna stay
Don't care if the snow baby
Wants to snow all day, yeah

You're burnin' me up
So let the snow come down, yeah
Here it comes, now

[Guitar Break]

When she comes near
I sense the atmosphere
Keep my head clear
I sense the atmosphere
When my baby's near
I love the atmosphere

Alright, yeah

I don't need no hat
No coat and no gloves baby
The love that you give me
So hot enough
Don't you know the snow is so deep, yeah
That it touches the sky

Keep lovin' me baby
Be here till I die

I sense the atmosphere
I sense the atmosphere, yeah
That's when my baby's here
When my baby's here

When my baby comes near I love the atmosphere
When my baby comes near I love the atmosphere
Keep my head
Keep my head
When my baby comes near I love the atmosphere
When my baby comes near I love the atmosphere
Atmosphere
