

Superstar

Alunageorge

Nobody gives a damn
Nobody gives him credit where it's due
I'll be his number one fan
Even if it makes me look a fool And I could never ask for more
And I could never be unsure
Cause when I'm sick and tired of life
He's got the cure He's a superstar,
In his own home in his own home
He's a super star,
But he's unknown but he's unknown He can do things you won't believe
And it comes to him so easily
Cause he's a superstar,
In his own home in his own home Coming in late at night
Creepin' around here, hear the sound of my own breathing
Hangin' in the street light
Taking in the smell that gives me that same feelin' I'm gonna make it right some day
I'm gonna win this fight some day
I'm gonna reach that height one day
I'll find a way to, show some love too, show some love He's a superstar,
In his own home in his own home
He's a super star,
But he's unknown but he's unknown He can do things you won't believe
And it comes to him so easily
Cause he's a superstar,
In his own home in his own home (Ooooooooooh) I don't want him to go through life
Like a low down soul who no one cares about
I don't want him to feel like no one sees that he makes everything alright I don't want him to go through life
Like a low down soul who no one cares about
I don't want him to feel like no one sees that he makes everything alright He's a superstar,
In his own home in his own home
He's a super star,
But he's unknown but he's unknown He can do things you won't believe
And it comes to him so easily
Cause he's a superstar,
In his own home in his own home He's a superstar,
In his own home in his own home (in his own home)
He's a superstar,
But he's unknown but he's unknown He can do things you won't believe
And it comes to him so easily

Cause he's a superstar,
In his own home in his own home
