Lost Soul

Thomas Penton

Sometimes I watch my life
And it slowly goes from black then into white
I know if you watch the time
Leaves you standing poring moments in life
I know I've been through black and white
I know I'll put up a fierce fight
I know I lost my soul
I know that I lost my soul
So I wait to seize the day
The clouded mind, the hell, I've a lot to pay
I find that if you know your way
You get out of this mess
I know I've been through black and white
I know I'll put up a fierce fight
I know I lost my soul
I know that I lost my soul
I know there comes a time
To believe in yourself and grow in confidence
Stop hiding behind the door like everyone else
Just get out and do your best
I know I've been through black and white
I know I'll put up a fierce fight
I know I lost my soul
I know that I lost my soul
I know that I'll find my soul
