

I Just Want Some Skank

Circle Jerks

Empty frame on the wall
Cat and mouse, when she don't call
And all I do is think of her
The TV screens picture's blurred So take it away, take it away
Every night the scene is set
I've go to drink to forget, I cannot incur this debt
Where's the gun? Here's my head! Let's go to the Hong Kong
Breaking glass at madame wong's
Let's go get a bottle
Getting drunk, getting loose I just want some skank
I just want some skank
I just want some skank
I just want some skank Passing flyers at the troub
Seven nights, seven 'ludes
What's the deal with this band?
Let's go roll some fields, man I just want some skank
I just want some skank
I just want some skank
I just want some skank Every night would be so great
I'd take you home to meet mom and dad
And they'll be so glad, they won't think their boy's a fag
They'll go upstairs and go to bed
