

The World Starts Tonight

Bonnie Tyler

Tonight I'm gonna love you
Tonight I'm gonna try
Tonight I will take
My foot off that brake
'Cause you made me grasp
What is over is past
And the world starts tonight
The world starts tonight
Tonight I'm gonna love you
Tonight I know I'll find
That the world still goes on
Just a part of it's gone
'Cause you made me grasp
What is over is past
And the world starts tonight
The world starts tonight
Baby, oh baby
I made the mistake
I thought love was something
They no longer made
But since you have brought back
Some love to my eyes
My doubting of people
No longer applies
Tonight I will take
My foot off that brake
'Cause you made me grasp
What is over is past
And the world starts tonight
The world starts tonight
The world starts tonight
