

# Big Women

GBH

Big women, I like the size, big women flabby thighs.

Big women, big women, big women .. they fill my eyes.Oooh a a ah !Here they come, walking down the street,  
big and bouncy look so neat.

I like them best between the sheets, big women give me a treat.Skinny wenches will not do, I need a big one to  
see me through.

I've gotta get some meat to see me through the night,  
in the morning I feel alright.
