Hesitation

Beat Connection

Still bagged up and ready
Make moves in the four folding
Slip in with a grin, wind up
Mild potion, bad motion, bad motion
Quick stabs in the dark
X stop, bad mother, hold steady and stir
Please kneel, this is
Short faces once again move the phone, move the phone, yeah
I know you're waiting on my move tonight
HESITATION, wait until the moment's right
I know you're waiting on my move tonight
HESITATION, wait until the moment's right
Looked up altogether, strange towns, bad weather
Loose slips in the distance
Spoil it, spoil the whole badge with cash
Don't speak, don't ask it
Another stab in the dark, light spark, bad mother
Hold steady, unstuck, if you gonna leave, just leave
Please, don't dragged out, don't think about it too much
Don't think about it too much
I know you're waiting on my move tonight
HESITATION, wait until the moment's right
I know you're waiting on my move tonight
HESITATION, wait until the moment's right
Don't think about it
Don't think, don't think about it
Don't think about it
Don't think, don't think about it
Don't think about it
Don't think, don't think about it
Don't think about it
Don't think, don't think
