

# Poor Cow

## Peter Bjorn and John

When all is gone and things go wrong  
We don't need them anymore  
The artifacts and all they lack  
We don't need them anymore I don't have the means and so it seems  
For now I can't participate  
But I waited long, now the dollar's strong again  
I still can't participate When we don't consume, it seems we are immune  
To all of the faults they sell  
You know as well as I, that's a lie 'Cause I wanna spend, I wanna spend  
In a never ending story but it always ends  
I wanna spend, I wanna spend  
In a never ending story but it always ends And when I die, the angels will try  
To count on my belongings  
To measure my word, pure gold solitaire  
To see if I'm worth keeping But the house I rent and the car I drive  
I'm sorry but they ain't mine  
You know I as well as I, that's no lie 'Cause I wanna spend, I wanna spend  
In a never ending story but it always ends  
I wanna spend, I wanna spend  
In a never ending story but it always ends  
And it always ends and it always ends
