

You Will Only Break My Heart

[Delta Goodrem](#)

Tell me your thoughts now baby Tell me your thoughts now baby, tell me what's on your mind
Tell me what's eating you alive
Tell me your darkest secret, clear up those stupid lies
Show me what's there behind those eyes I wanna know 'cause I can't face another day here in the dark
I'm tired of wondering when we're together baby where you are
Why should I give you everything, when you will only break my heart?
You will only break my heart, you will only break my heart
You will only break my heart Tell me your thoughts now baby, tell me what's on your mind
Tell me what's eating you alive
Tell me your latest story, what will it be this time?
Show me what's there behind those eyes I wanna know why you can't find a way to just let down your guard
I don't believe that love or what we had should ever be this hard
Why should I give you everything when you will only break my heart?
You will only break my heart, you will only break my heart
You will only break my heart All this is too familiar, I think we've been here before
And I promise myself I'll never come back here for more
I wish I could believe you, I see you down on your knees You will only break my heart, you will only break my
heart
You will only break my heart, you will only break my heart
You will only break my heart, you will only break my heart
You will only break my heart
