Tina

Brian Goss

I seen you falling down on the bathroom floor
While all your boyfriends are searching for more
I've seen the vultures fly when you come round
I've seen some friends die when you come downTina, Oh TinaThe best that I can do is adore you from afar
Remember chasing fire flies with a mason jar
When all the stars above us lit the sky
Now your contaminated smile burns my eyesTina, Oh TinaWho could ever put you down
I cold never put you down
I light the last cigarette in town
I could never put you downI seen you falling down on the bathroom floor
While all your boyfriends are searching for more
I've seen the vultures fly when you come round
I've seen some friends die when you come down
And all your girlfriends pretend that they're immune
But the three o'clock chorus lines in tune...Singing Tina, Oh Tina
