

This Night

Black Lab

There are things I have done
There's a place I have gone
There's a beast and I let it run
Now it's running my way There are things I regret
That you can't forgive you can't forget
There's a gift that you sent
You sent it my way So take this night and wrap it
Around me like a sheet
I know I'm not forgiven
But I need a place to sleep So take this night
And lay me down on the street
I know I'm not forgiven but I hope
That I'll be given some peace There's a game that I played
There are rules I had to break
There's mistakes that I made
But I made them my way So take this night
And wrap it around me like a sheet
I know I'm not forgiven
But I need a place to sleep So take this night
And lay me down on the street
I know I'm not forgiven
But I hope that I'll be given some peace
Some peace, some peace
