

Game Over

Skindred

Noone can do this alone !
i wanna trade this dirty hat for a crown.
inside my shoe these a stone.
and were it came from nobody knows.
now this is a mission still with all that im saying time will tell.
Yeah! yeah!(Chorus):
were stepping up and we ah go really let them know.
we are the champion victorious right now suffer with decisions.
you play the game the aim to win, to whip the smile right off ya face
for he who fight s and runs away, will live to fight another day!
Game over! pass the control
Game over!pass the control your done dead already and u got to move over pass the chunks!i know i gorra do
this alone,I wanna be tha king that sits on the throne!
you can't get blood from a stone,gravity gunner keep us all on da ground.
I aint in submission now suffer you r decisions.were stepping up and we ah go really let them know.
we are the champion victorious right now suffer with decisions.
you play the game the aim to win, to whip the smile right off ya face
for he who fight s and runs away, will live to fight another day!
Game over! pass the control
Game over!pass the control
