

# 50 Candles

## Boyz II Men

Advisory - the following lyrics contain explicit language:

It's gettin' kinda dark already

Should I light 'em?

Hey baby I'm ready, I'm oh so ready

I want to make love to you, hey

Take 'em off, throw 'em down

Come here and let me feel what's in front of me The outside world is of no concern

Just let our bodies and the candles in the room burn

With feverish passion uncontained Feels like one of those nights

Lady, I'm in need of love in a hurry

50 candles burn bright

And all is right, as our bodies unite

Take our time, do it right Give me your hand touch me right here

Oh so good want it more and more

Each moment your fingers linger all around

As I kiss you in the place Where your composure comes undone

And your mind runs We'll make love 'til the sun completely rises

Come play with me

Let me be the toy

That fulfills your needs

'Cause I'm yours tonight and you're all mine, roll with me Don't be afraid let the feeling take you away

To a world of ecstasy

Where all you got to do is be free

And give your all and all Feels like one of those nights

Lady, I'm in need of love in a hurry

50 candles burn bright

And all is right, as our bodies unite

Take our time, do it right Come and get this, waited all my life for your touch and soft kiss

And life will never be the same, while ya moan and groan

I hear your voice call my name

Holding your body like a plastic molding Your soul I'll be controlling

As the candles burn, we toss and turn

From night to day, all our pleasures we learn

Come and play with me tonight's our night baby,50 candles burn bright  
Come and roll with me  
Make love to me  
Hold on tight  
It's going to be a bumpy rideFeels like one of those nights  
Feels like one of those nights
