

Wait no more

Dj Lukas

So here we are again, boy, this always happens
It ain't like we scared but we know what happens
When things move to fast but should be moving slow
And it makes me want you more

Oh, boy

I been wanting this more than you know, boy
It's killing me but we should take it slow, boy
It'd be so much better if we wait till we can't wait no more
Boy, the love is there so there's no need for rushing
You can come right here but don't you start that touching
It'd be so much better if we let this build up
It's worth the wait for something bigger

Oh, boy

I been wanting this more than you know, boy
It's killing me but we should take it slow, boy
It'd be so much better if we wait till we can't wait no more

Oh, boy

I been wanting this more than you know, boy
It's killing me but we should take it slow, boy
It'd be so much better if we wait till we can't wait no more
Baby, we got time, I'll be worth the wait
We got the ingredients just let 'em marinate
When the time is right

Promise you, it'll be a night that you won't forget the rest of your life

Oh, Boy

I been wanting this more than you know, boy
It's killing me but we should take it slow, boy
It'd be so much better if we wait till we can't wait no more

Oh, Boy

I been wanting this more than you know, boy
It's killing me but we should take it slow, boy
It'd be so much better if we wait till we can't wait no more
