

# Kitten Air

## Scott & Brendo

Yo  
What Up?  
Wilz a Gs(Yeah) WooLittle baby cat, so high, so fly  
    Floatin' through the air, no cares in the sky  
    And I wonder what the little kitty thinkin' in the brain  
Flying like a plane, like a speed train, goin' insaneSuperman, supercat, super cool, super phat  
    Super neat, super sweet, everybody on their feet  
    And dance!  
    Like a jigga jig boogey boy  
Doin' everything you can with a little joySlow down, and wait a sec  
    Everybody just take breath, what? what?  
JK 'cause we're doing fine, let's join these kitties and begin to flyWe float (we float)  
    We fall (we fall)  
    We dance (we dance)  
    We ball (we ball)  
    (Yeah and we're on)  
    We're on a roll  
    (We lose)  
We lose controlLittle baby man so sweet so blameless  
    All he ever wanna do is just be famous  
    But, dad and the mommy always said to him  
You and your dumb dreams might as well be dead to himOne day when walking through the park,  
    It was dark but he heard a little voice in his heart  
    And he looked to the left and he saw with his own eyes  
A blue sky and cats beginning to fly!Slow down and wait a sec, this time I'm gonna take a breath  
    What? What?  
    I'm fine  
It's time, to join these kitties and begin to flyLittle baby man, so sweet, so blameless  
    All he ever wanna do is just be famous
