Received March ninth at 6:18 pm Sean what's up, it's Cody
So I was just driving from the old road
And there's this fucking Ford truck in front of me
And it has a W'04 sticker And it has a fucking, a George Bush sticker
You know and then it has a it has those little sticker guys
That usually people have like piss on Ford or piss on Chevy
And it's all piss on John Kerry Like he had all this shit on the back of his truck right
So we were sittin at the stop stoplight
So I flip him the fucking W
Like you said right And so I'm flipping him the W
And like he can't figure it out
And he's like telling his wife
I can see he's like "Ya there's this guy behind me ya know like doing the W sign"
And he didn't get mad right
'Cause he didn't know
He thought I was like ya fucking pro Bush So I give him the W and I flip him off
At the same time dude
And then he realizes like
"Oh shit this guy isn't a fucking pro Bush guy" Ya know and then he
The the light turns green
And he fucking
He stops in the middle of the intersection dude And then his wife's like
You could tell she's like
"What are you doing"
Ya know And so then he just takes off
And then the next light turns red
And he fucking hits reverse
Like he's gonna reverse into me and shit And then ya know
I was just sat there patiently ya know
Just like I'm not gonna budge
I'm not gonna try to drive away scared or anything Ya know and then he just takes off and it was
It was just like nothing happened
But it was funny dude
I had to fucking do something to this guy dude, fuck
