

Better

Gabe Bondoc

Verse 1:

Hes the kind of guy, who would lie,
Through his teeth when he needs to fake it
And hell make you smile for a while,
Till he needs someone new he could play with I will always be the boy that youd play with in the street
If youd treat me just like all the little boys that youd meet
Well I may not have swag but girl I know that Ive got heart

Chorus:

So dont you do it,
No, dont be a part of his master plan
Believe me as I say this,
He aint human, (oh no)
Aint your better half, (no no)
Youd see who is if you choose me Well Im no him but hes no me,
Im better

Ohh well Im better baby
Yeah Im so sure if you choose me youll see it,
Ohh youll see it girl Not just the boy that you had grown up with,
Now Im the man you should come and be with,
Well I know I aint him girl but,
He aint me. He aint me

Verse 2:

Look hes got a gift make you feel like hes it,
So much charm its blinding
Sure the grass is green, that dont mean,
That there aint any snakes in hiding. I wanna be the guy who can sweep you off your feet
Give you all the love I know you feel in your dreams
But I may not have swag but girl I know that Ive got heart

Chorus:

So dont you do it,
No, dont be a part of his master plan
Believe me as I say this,
He aint human, (oh no)
Aint your better half, (no no)
Youd see who is if you choose me Well Im no him but hes no me,
Im better

Ohh well Im better baby
Well Im so sure if you choose me youll see it,
Ohh youll see it girl Not just the boy that you had grown up with,
Now Im the man you should come and be with,
Well I know I aint him girl but,
He no me

Bridge:

Falling so easy when youre not looking,
Oh well I hope youre looking cause
Dont take too much
For you to loose your footing
Well now, Im always there to catch if you lose your step
But you dont have to fall and known as better yet
Well I know I aint him girlChorus:
No, Im glad I aint
Dont be a part of his master plan
Believe me as I say this,
He aint human, (oh no)
Aint your better half, (no no)
Youd see who is if you choose meWell Im no him but hes no me,
Im better
Ohh well Im better baby
Im so sure if you choose me youll see it,
Ohh youll see it girlNot just the boy that you had grown up with,
Now Im the man you should come and be with,
Well I know I aint him girl but,
He aint me
No, he aint me
