Hum

Throttlerod

I am the dying lung of the town you left
I was beginning to fear
Beginning to fear that you'd never come back
But you're hereAll around my body
All around my body
All aroundBut your here
In the path you've seen
The other path you've seen
The other path
I can only find you
You're everything
I can only find you
You're everythingI can only find you if you are are looking for meWhere will I go
Where will I goI belong inside you till I forget how to beWhere will I go
Where will I goI can only find you if you are looking for meWhere will I go
Where will I goI belong inside you till I forget how to beWhere will I go
Where will I go
