

# The Same Old Hurt

[Burl Ives](#)

Got a new house with new lumber  
Even got a new phone number  
Did it all since we broke apartGot acquainted with new faces  
Started going to new places  
But I've got that same old hurt in my heartGot a new suit for next Sunday  
Got a new job starting Monday  
Got everybody thinking I'm half smartGot a new vocabulary  
Even got a new canary  
But I've got that same old hurt in my heartNo matter what I change  
Same old hurt stays the same  
Always there reminding me that we're apartGot a new wallet full of money  
Got a new girl that calls me 'Honey'  
But I've got that same old hurt in my heartNo matter what I change  
Same old hurt, it stays the same  
It's always there reminding me that we're apartGot a new wallet full of money  
Got a new girl that calls me 'Honey'  
But I've got that same old hurt in my heartGot that same old hurt in my heart
