Hey You It's Me

Michael W. Smith

[Verse 1:]
Hey you - things to do
Live the life for faith and family
It's tough, with all that stuff
Filling your head
We know the undertow
Could get us so we don't remember, but
Lest we ever
Lest we ever forget

[Chorus:]
Hey you, it's me
True lovers are we
Children under the sun
Two spirits in the name of one

[Verse 2:]
Hey me - got to be
Places to go and people there to see
No space for back to base
And no time at all
We talk, walk the walk
Run the race and climb the ladder, but
If we ever
If we ever should fall

[Bridge:]
Sometimes the smoke clears
And I see things how they are
I see how we have come so far
