This Christmastime

Corbin Bleu

If I had one wish this ChristmasEverybody in the neighborhood
Is coming around here tonight
We're gonna have a Christmas party
We're gonna make the season brightThat pretty girl who lives around the corner
I kinda hope shell be here
All my uncles and my cousins
Gonna be here by the dozen
For all of them theres cheerI wish for peace and joy this Christmas
I want the light of love to shine
Im gonna say a prayer that everywhere
Theres hope this ChristmastimeIf I had one wish this Christmas
This is what my wish would be
I hope that one and all would heed the call
For peace and harmonyAll we need is love and a sweet song
Its the time we can share
It's getting late I can't wait
I sent my dream to heaven's gate
For everyone out thereI wish for peace and joy this Christmas
I want the light of love to shine
Im gonna say a prayer that everywhere
Theres hope this ChristmastimeLet laughter and light get deep inside your body
Shine through the body
This time of the bliss for you and me
Just believe, bring on those merry daysI wish for peace and joy this Christmas
I want the light of love to shine
Im gonna say a prayer that everywhere
Theres hope this ChristmastimeIt's Christmastime, it's Christmastime
I want the light of love to shine
This Christmastime, this Christmastime
This Christmastime
It's Christmastime, it's Christmastime
