

Two Horses

Mark Lanegan

I check out when the dance is done
The world takes an overdose
I feed on the easter flower
And search for that starry crown
I can't help it I trip on the teeth and feathers
Outside the factory
My horses click their hooves together
And caravan down through the desert
I can't help it
I can't help it I check out when the dance is done
Seen all I was meant to see
Blind men walking the high wire
Above an eden of magnolia trees
I can't help it
I can't help it
I trip on the teeth and feathers
Outside the factory
My horses asking one another
Why have I led them to black water
I can't help it
I can't help it
I can't help it
