

True Shred Guitar

Sleigh Bells

New orleans
Push it, push it, push it
True shred guitar
Push it, push it, push it
True shred guitar
Enemies, on your knees, suffer please
Enemies, carry me, M16
Push it, push it, push it

True shred guitar
Push it, push it, push it
True shred guitar
If you see what I see, bury me
Burn the trees, baby please, finish me
Push it, push it, push it
True shred guitar
Push it, push it, push it
True shred guitar
