Someone Else's Plan

Adam Green

Now I'm bored and feeling sorry
for someone elses plan
Avengeful disected the woman from the man
Might being held when someone elsereached out his hand
Its good to see you on a face on someones face I know
Twice approved your name but now you cant grow old
Your wind is coldYour fever and the cain
People like us get married every day
Now Im feeling sorry for everyone you know
When they lose your weight
or occupy your holeDont they wish they could send you back
but had to pay you toll
And then they make you smoke a bowl
Ive been switching cages and I need ur ego glue
