

In the Country

America

All you brothers and sisters
Lookin' for a better way
Why don't you all go to the country?
Hitch a ride from the city, get away for the day
The summertime is gonna take you
People playing music won't forsake you
But when it's hot
You gotta go all the way
All you dancers and twisters
Lookin' for a place to play
Why don't you all go to the country?
People in the city, get away for the day
I don't know how I'm gonna do it
But someone else will push me to it
But when it's hot
You gotta go all the way
The summertime is gonna take you
People playing music won't forsake you
I don't know how I'm gonna do it
But someone else will push me to it
