Order

Avail

not impressed
with who knows who
and it never really
matters if you win or lose
passively reject
let the rats race on
stand sound until they are gone
have you rejected what you learned?
is your resistance all that they've heard?
burn that phase and then burn it again ignore the emphasis
on competition
you protect you
there's no no
keeping score
fight the past
it's you that you ignored
turn away
what's become of us?
has your persistence been ignored?
