All for You

Dr Meaker

I gotta mean streak, yeah
facing down your street
baby you better cross over
cos my game face is all you're gonna meet

chorus:
It's all for you honey
we won't put the kicking boots on
I got no reason to lie to you honey
you got me but you still got me wrong

You know that I got a mean streak, yeah
falling at your feet honey
you're gonna have to stomp it out right now honey
i'm a jeckyll and hyde, a mother fuckin' freak

It is all for you
you see im just tryin to find my party route
it is all for you
you see i'm just trying to flex my body out
it is all for you
you see i'm just trying to get my grind on
it is all for you
Before I gotta pick it up and drag it home

It's all for you honey
We won't put the kicking boots on
I got no reason to lie to you honey
you got me but you still got me wrong
because its all for you honey
We won't put the kicking boots on
I got no reason to lie to you honey
You got me but you still got me wrong...this time
