

# Lust For Life

## Girls

Oh I wish I had a boyfriend  
I wish I had a loving man in my life  
I wish I had a father  
Maybe then I would have turned out right But now I'm just crazy  
And totally mad  
Now I'm just crazy  
And fucked in the head  
But maybe if I really tried with all of my heart  
Then I could make a brand new start in love with you Oh I wish I had a sun tan  
I wish I had a pizza and a bottle of wine  
I wish I had a beach house  
Then we could make a big fire every night Instead I'm just crazy  
And totally mad  
Yeah I'm just crazy  
And fucked in the head  
And maybe if I really tried with all of my heart  
Then I could make a brand new start in love with you Come on, come on, come on Kayla
