

# Don't Speak Up

## Aerodrone

We'll talk for hours maybe even days  
And then for weeks and months and years  
Whatever's left

But I'm not listening 'cause nothing that you'll say  
Will ever change  
Yea it's all ingrained  
And I'm going away(2x)

But before I do, I'll say:

You talk like  
You need me  
And act like  
You understood  
But I've got no meaning  
Yea I am, just another face  
And if I am so wrong  
I'm sorry! It's just the way I feel  
'Cause when you are with him  
You're so on that  
I just wish I didn't care but I do(3x)  
I wish I could just never ever feel anything

You think I don't notice but I'm telling you  
I do I do I do  
But in the end it's always (trivial 5x)  
And I don't speak

So when you think that everything is fine!  
It's not it's not 'cause I can never get me (out of here 5x)  
But I don't speak up(2x)

None of this is really about you  
I'm just making it all up in my head and  
You are really nobody special  
Even if you were I could care less

I don't really feel a connection  
And your passion bores me to death  
I'm just so unique and so special

I don't really need anyone but myself!

And I'll pretend that I'm still talking to you(4x)

But now I'm going away, going away, going away, going away, going away, going away,  
there's nothing that I wanna say!

You think I don't notice but I'm telling you

I do I do I do

But in the end it's always (trivial 5x)

And I don't speak

So when you think that everything is fine!

It's not it's not 'cause I can never get me (out of here 5x)

But I don't speak up(5x)
