

# With You

## Phora

Sometimes my mind drifts way back to the past  
Holding onto the last string trying to make this shit last  
It's hard to tell who's really fake  
Everybody got a mask  
But you was always down to ride  
I ain't never have to ask  
Never doubted you not once  
Girl you was always there  
I was just running from my feelings  
I don't know why I'm so scared  
Maybe I just wasn't ready  
Maybe you was too perfect  
You came in  
I fell for you  
Started not to feel so worthless  
But sometimes these things don't turn out for the better no  
Been a minute since we last talked  
Everybody tell me to just let it go  
Both of us been through so much  
All the pain it would never show  
Always wondered how you really felt  
Shit I guess i'd probably never know  
But it's all okay  
Maybe we wasn't meant to be  
Maybe me  
I was meant for you but you just wasn't meant for me  
Maybe I should just give it time  
Maybe I should just let it be  
It's crazy how it was just me and you  
But the whole time it was never we  
Cause I know it was hard for you to trust me again  
Cause all these other girls just wanna fuck or be friends  
But no one got that type of love that I feel witchu  
Then you say 'why do you stay with me if it was just to pretend?'  
Don't lie to yourself  
Don't act like you're ready if you still love someone else  
Don't say that you're sorry no more  
That's not gonna help  
Cause you're only sorry after the damage is done I know that you need me with you

Cause I feel the same about you  
I know that you need me with you  
Cause I feel the same about you  
I know that you need me with you  
Cause I feel the same about you  
I know you need me with you (need me with you)  
Cause I feel the same about you  
I ain't got nothing to hide, no  
Hide no  
I been searching for some time though  
My eyes low  
You bring the wave when the tide low  
The tide low  
Got a body like she from LA  
Attitude from Chicago  
You know you got it Never met a girl like you and that's just being honest  
You can keep your secret but you never kept your promise  
But maybe we can make this work again just think about it I know you need me with you  
Cause I feel the same about you  
Yeah, I know you need me with you (need me with you)  
Cause I feel the same about you  
I ain't got nothing to hide, no  
Hide no  
I've been searching for some time though  
My eyes low  
You bring the wave when the tide low  
The tide low  
Got a body like she from LA  
Attitude from Chicago  
You know you got it  
You know you got it  
You know you know I know you know
