# Love 2 Love

## RADIORADIO

I was shaking I was choking I was so tongue tied,
that much is true.
But when the lights came shining in you broke my fever,
you made me feel brand new.This time we've had has been such good times
I will always love you.Love to love me baby
Love to leave me, love to leave me
Love to love me baby
Love to leave me, love to...I was tired I was through but I really got to
hand it to you
with every cry and every sigh oh crocodile
you know I couldn't resist you!Love to love me baby
Love to leave me, love to leave me
Love to love me baby
Love to leave me, love to leave meWhere ever you go tomorrow,
remember this love we shared tonight.
