

Slowly (Festival Mix)

Dropout

[Verse]

Yeah, I know you want it

Lay it out, honey

Cause I can't find the way to where you're going

It started slow, on your own

Make me feel like all your cards are showing[Pre-Chorus]

I'm still swimming in the open

Seems like something's really broken

But I don't need a fix, I need a friend

And I'm looking past the outlines

Making sure you're there when I find

I won't miss this chance again[Chorus]

Just take me there slowly

And hold me like you know me, forever

Take me there slowly

And hold me like you know me, forever

Take me there slowly

And hold me like you know me, forever

Take me there slowly

And hold me like you know me, forever[Verse]

Yeah, I know you want it

Lay it out, honey

Cause I can't find the way to where you're going

It started slow, on your own

Make me feel like all your cards are showing[Pre-Chorus]

I'm still swimming in the open

Seems like something's really broken

But I don't need a fix, I need a friend

And I'm looking past the outlines

Making sure you're there when I find

I won't miss this chance again[Chorus]

Just take me there slowly

And hold me like you know me, forever

Take me there slowly

And hold me like you know me, forever

Take me there slowly

And hold me like you know me, forever

Take me there slowly

And hold me like you know me, forever[Bridge]

I'm still swimming in the open
Seems like something's really broken
And I'm looking past the outlines
I won't miss this chance again[Chorus]
Just take me there slowly
And hold me like you know me, forever
Take me there slowly
And hold me like you know me, forever
Take me there slowly
And hold me like you know me, forever
Take me there slowly
And hold me like you know me, forever
