

# S-More

Jodeci

Baby, baby, baby, baby, I was thinking about you last night  
The way you looked last night, you left me satisfied  
It takes two to Tango, tell me can you handle  
Come on along, you know you want s-more You know you want s-more, you know you want s-more  
And if you want s-more open up my door  
You know you want s-more, you know you want s-more  
And if you want s-more open up my door I hear you knocking at my door, let's me know  
You want more, come and get it, if you with it  
I'll touch you, how you like it, is it sensitive  
Do you wanna give, give s-more, open my door Lady, lady, lady, you were bragging on the phone  
About the things you could do to me when we're alone  
Baby, baby, you know what I got to give  
Do you want it, do you want it, tell me if You know you want s-more, you know you want s-more  
And if you want s-more open up my door  
You know you want s-more, you know you want s-more  
And if you want s-more open up my door I hear you knocking at my door let's me know  
You want more, come and get it if you with it  
I'll touch you, how you like it, is it sensitive  
Do you wanna give, give s-more, open my door I hear you knocking at my door  
Baby, knocking baby, knocking baby  
Knocking baby, you know you knocking  
And you want s-more and I know you want s-more  
You want s-more, you want s-more, baby I hear you, I, I hear you knocking baby, I hear you knocking baby  
Nothing in the world, nothing, nothing in the world  
Nothing in the world can make you feel  
The way I make you feel You know you want s-more, you know you want s-more  
You know you want s-more, you know you want s-more  
You know you want s-more, you know you want s-more
