# We're On Drugs

## Pitty Sing

When she's not at home
I walk this world alone
Until she gets the phone
Go to sleep in this state
But as soon as I awake
The sun reveals her face
And then it comes when it feels like we're in love
Just remember we're on drugs
When I'm walking the streets

I wish we never meet
I always kiss your feet
And then the moment it falls
I'm about to lose it all
I'm buried in the walls
Yeah we're on drugs
And then it comes when it feels like we're in love
And they've covered us in blood
Just remember we're on drugs
We're on drugs
