

Roquefort (with Empire Horns)

Karnivool

You want to chase, this rabbit down a hole
You start to slide and lose grip of control
Make haste, it's time, to ruin or reward
You say "give in" then you beg for more You'll bury this, slow down
It's all this system breeds
You'll bury this, slow down, it's time to make amends Save your eyes for this place where I define you
Myth or desire
When it's true love you held dear, feel it rising So cut me, to size, I'm losing shape through all this
You call me sublime, you know that's such a waste of energy.
Will I change, your mind if I could show you my way?
A black stain on your heart, you know that's not what i want to see. You'll bury this, slow down, it's time to
make amends
(Always in vain now) Save your eyes for this place where I define you
Myth or desire
When it's true love, you held dear, fear your horizons You want to chase, this rabbit down a hole
You start to slide and lose grip of control
Make haste, it's time to ruin or reward
You say "give in" and then you beg for more You'll bury this, slow down, it's time to make amends
I crave you Set your eyes on this place where I define you
Myth or desire
When it's true love, you feel
Save your eyes for, this place where I define you
Myth or desire
When it's true love you feel here.
Feel it rising
