Fireflies

Leona Lewis

If I could only see this night as another day
I?d know you found your silence,
Instead of being wrapped up in me,
Wrapped up in this violence.

I?m back floating on water,
Looking out at the night.
There?s a hole in the sky,
All those fireflies.

Don?t believe in the sun,
Or the night-time skies,
They?re only fireflies.

Took a walk out the door,
On the day you would die.
And I looked up to the sun
And I saw fireflies.

And now I can?t see no boarder
Between the day and the night
You were torn all your life
Between those fireflies.

Fire, it?s only fire,
It?s only fire, it?s only fireflies
Fire, it?s only fire, it?s only fire,
It?s only fire, it?s only fire.
It?s only fire, it?s only, it?s only fire.
