The Andy Griffith Theme

Andy Griffith

Maybe live for the dark leaves
Shake the floor, the seeds come spinning down
All night, let's go all night
Through your hair giving me those green eyes
Life kills me, oh, life kills me
Finally we've found the sweetness
Turning heaven over upside down
The first light, seeing the first light
Through your hand I can feel the green mind
Life kills me, oh, life kills me
Praise be, live for the dark leaves
Shake the floor, swinging round and round
All night, let's go all night
In the air we can breathe our belief
Life kills me, oh, life kills me
Life kills me, oh, life kills me
Life kills me
Life kills me
Life kills me
Life kills me
