

Too Far This Time

Brooks & Dunn

She said, "Out with the boys don't cut it no more"
And I'm sorry is just noise, she's heard it all before
Said that ring on her finger, well it feels like prison
She's talked 'til she's blue and I don't listen I went too far this time crossed over that line
I'm past the point of no return, livin' proof some fools never learn
Well, I pushed my luck, now she's givin' up
Somethin' tells me I went too far this time She said, "Save your breath boy, I've heard it all
Keep your place there with your back to the wall"
Said I'm leavin' you lonely as I've had my share
Save those worn out I love you for someone that cares I went too far this time crossed over that line
I'm past the point of no return livin' proof some fools never learn
Well, I pushed my luck, now she's givin' up
Somethin' tells me I went too far this time
