Was It Something I Said

Omd

Was it something I said
Or something you read
Is changing your mind
Is turning you aroundIs somebody wrong
And somebody right
What was it made up your mind
What could change overnightAnd if all of your friends
Who used to be mine
Come down off the fence
And swear that you're fine
I can hate you no more
I can't even the score
Almost half of my life
Just fell right on the floorDon't you come round here no more
Don't you waste my time
Don't you dare to phone me
Don't even have me on your mindWas there someone you know
Who won't let you go
They're pushing you under
And bleeding you slow
They don't want your time
They won't give you mine
Their hands in your pocket
And your heart's on the line
I'm know I'm not perfect
I wanted to be
I have this big mouth
It always contradicts me
You say you don't know
I say anything goes
But if you think it's over
Then this you should knowDon't you come round here no more
Don't you waste my time
Don't you dare to phone me
Don't even have me on your mindWas it something I said
Or something you read
Is changing your mind
Is turning you aroundIs somebody wrong
And somebody right

What was it made up your mind
What could change overnightWas it something I said
Or something you read
Is changing your mind
Is turning you around
