Alienated

MINDSICK

Since I've become a shooting star
I've been wondering where you are
Seems like you're forever in a getaway
Momma told me that it would happen to me one dayFeels like we've been apart for some light years
Crater in my heart filled with my tears
Stars align, I'll be your girl again
What I'm tryin say, I want you back in my world againYou're the reason I don't change my number
Don't you know it's still the same
And I bet you remember that summer
When we kicked it everydayDon't know how it happened, just happened
Kinda like we faded away
And I feel so alienated, don't you feel so alienated?I miss you and I want you back
I lost your signal, where you at?
And I don't know how we lost contact
Where did you go? I'm searching for youCan't get you outta my system
Outta my system, outta my system
Can't get you outta my system
Outta my system, outta my systemCan't get you outta my system
Outta my system, outta my system
Where did you go? I'm searching for youSitting watching time passing by me
Voices in my head asking why me
I'm here wishing you would stop by my place
But the only time we talk is on MySpaceBy the way have you found my replacement?
She should be the one on this spaceship
Waking up, reaching for you when you're not there
You got me in another galaxy, I'm out thereYou're the reason I don't change my number
Don't you know it's still the same
Oh boy, I know you remember that summer
When we kicked it everydayDon't know how it happened, just happened
Kinda like we faded away
And I feel so alienated, don't you feel so alienated?I miss you and I want you back
I lost your signal, where you at?
And I don't know how we lost contact
Where did you go? I'm searching for youCan't get you outta my system
Outta my system, outta my system
Can't get you outta my system
Outta my system, outta my systemCan't get you outta my system
Outta my system, outta my system
Where did you go? I'm searching for youWhere did you go? I'm searching for you

I wanna know where did you go?
Where did you go? I'm searching for you
I wanna know where did you go?Where did you go? I'm searching for you
I wanna know where did you go?
Where did you go? I'm searching for you
I wanna know where did you go?System, outta my system, outta my system
System, outta my system, outta my system
System, outta my system, outta my system
Where did you go? I'm searching for youSystem, outta my system, outta my system
System, outta my system, outta my system
System, outta my system, outta my system
Where did you go? I'm searching for you
