

# World War 3

## D.O.A.

(Keighley, Biscuits. 3:31)

WW III, WW III, WW III, don't you bloody see? WW III  
It doesn't matter what you say, you won't make it no bleedin way  
You haven't got any choice, you really haven't got any voice  
Preventive measures have been taken, it'll really help against  
nuclear rapin  
No streets, no people, left on the land, the policy ran out on our  
plan  
That's right...  
World war, lotsa fun  
People in a panic, on the run  
World war, lotsa fun  
White House is aimin the gun  
World war, lotsa fun  
People in a panic on the run  
World war, lotsa fun  
The kremlin's aimin the gun  
We're pawns in the middle, sittin ducks with no acquittal  
They're gonna make us fight, protectin oil is our right  
Unlock them now on the flag deck, Soviet bombers you're gonna net  
It's breakin up the Richter scale, bombs away, they're gonna sail  
No human lives stand in the way, cause we're on our way to a new  
clear day  
That's right...  
CHORUS  
I really don't want to die, World War III  
With A-bombs droppin from the sky, World War III  
Don't give me your reasons why, World War III  
Just know I don't wanna die, World War III  
Give'em any chance they're gonna take it, give'em any rules they're  
gonna  
break it  
It really ain't no riddle, I just know it ain't gonna be little  
We haven't got a clue on what we're gonna do  
So we're just pawns in the middle, sittin ducks with no acquittal  
End up dead, end up dead, end up dead  
End up dead, end up dead  
World War III, World War III, World War III, World War III  
Give'em any chance they're gonna take it, give'em any rules they're

break it

It doesn't matter what flag you hoist, you really haven't got any  
choice

No human lives stand in the way, cause we're on our way to a new  
clear day

We're just pawns in the middle, sittin ducks with no acquittal

World war, world war

World war, I don't want it

World war, I don't need it

World war, I won't take it

World war, world war, world war
