You Got

Ruben Paz

You got no man now
My first name back in town
I know you love smoke

You know I keep 'em row
I see you all along
I may just hit your phone
I may just take you home
Stop doing late at down
I got my cake up now
When can I take out
Maybe sometimes next week
I may just stick around
I know you work all week
Just make sometime for me

I say fuck you men
You know he ain't like me
And you know... (You know)
Everytime I speak you listen
Sitting here wonder were how we got so distant
Remonizam about the past
The times we never had
Cuz you were working days
And I was working nights
Still got It for you
Lets just make things clear
Had to sacrifice us
You can blame my carrer
I didn't want do It baby
Had to hold back some tears
So I did It off
You had to make this my year
Say you have to move on
Turn my dreams in nightmares
At the top of my game
You couldn't been right here
I ain't got no fears
I'm just afraid of commitment

Trying to win you back
But everyday well some different

You got no man now
My first name back in town
I know you love smoke
You know I keep 'em row
I see you all along
I may just hit your phone
I may just take you home
Stop doing late at down
I need you you you
I want you now now now
Chary don't waste my time
I'm tryna to make you mine
I know you down down down
I need you now now now
I keep my head up high
I keep my head up high

I need you you you
I want you now now now
Chary don't waste my time
I'm tryna to make you mine
I know you down down down
I need you now now now
I keep my head up high
I keep my head up high

And now you seem me now
Hope I make you proud
My first name back in town
You know I shut It down
Want me to take you home
Miscalled some my phone
Girl I'm on my way
Tonight I'm in my zone

I got my shit roll It up
I know she down no lie
Been gripping on the tap
Got shuts is what which inside
I know you heard
I'm just tryna make you mine
Tell me when to go baby

I don't need to sing (No)
Please don't waste my time
If you don't want It girl
Then why you hit my line?
Didn't want to do It
But you always looking fine
Had to keep my chill
When someone else 'cause you're mine

No disrespect
I'm not better than your man
Is hard to understand
'Cause I had you with my plans
Caught up in the moment
Wanna go back to the past
Uno that forever want It less

You got no man now
My first name back in town
I know you love smoke
You know I keep 'em row
I see you all along
I may just hit your phone
I may just take you home
Stop doing late at down
I need you you you
I want you now now now
Chary don't waste my time
I'm tryna to make you mine
I know you down down down
I need you now now now
I keep my head up high
I keep my head up high

I need you you you
I want you now now now
Chary don't waste my time
I'm tryna to make you mine
I know you down down down
I need you now now now
I keep my head up high
I keep my head up high
