

# Christmas Without You

[Luanne Hunt](#)

Tonight alone I 'm thinking  
Of the things we use to do  
There's laughter all around me

But my heart still aches for you

The Christmas bells are ringing  
But to me their chimes are blue  
Oh, how lonesome Christmas day  
Will be, darling, without you

It's the first time that we've ever been apart  
It's Christmas eve  
But there's no joy, in my heart

Now someone else will hold you  
Just the way I used to do  
Oh, how lonesome Christmas day  
Will be, darling, without you

Inst

The carolers are singing  
An old familiar song  
I remember all the seasons  
When we would sing along

As I looked out my window  
My heart was sad and blue  
Oh, how lonesome Christmas day  
Will be, darling, without you

It's the first time that we've ever been apart  
It's Christmas eve  
But there's no joy, in my heart

Now someone else will hold you  
Just the way I used to do  
Oh, how lonesome Christmas day  
Will be, darling, without you
