

# One and Only

## Royal Tongues

Like clueless children, we did play  
Like clueless children, we overstayed  
I thought I was more than LAI thought about what I wanna sayMy one and only  
Are you still lonely?  
Killing your heart with rules?  
But my one and only  
True love isn't phony  
You can't fake this fool  
You can't fake this fool  
Our beautiful trips across the states  
How those thoughts never fade  
For each other, we were made  
Oh, but you areMy one and only  
Are you still lonely?  
Killing your heart with rules?  
But my one and only  
True love isn't phony  
You can't fake this fool  
You can't fake this foolYou're living a car crash  
Living a car crash  
You are  
You're living a car crash  
Living a car crash  
You are  
My one and only  
Are you still lonely?  
Killing your heart with rules?  
But my one and only  
True love isn't phony  
You can't fake this fool  
You can't fake this foolYou're living a car crash  
You're living a car crash  
You're living a car crash  
You're living a car crash
