

Been Smoking Too Long

Placebo

Yeah, I really, um, I really, I really wanted to kind of like,
To capture some kind of like moment, but maybe it's better if I'm
sober'

Wake up in the morning, I look at my clock

It's way past noontime, i'm late for work

Tell me what have i done wrong?

Nothing can go right with me it must be that i've been smoking too long

Go to fix me some breakfast, i ain't got no food

Take me a shower, the water don't feel no good

Tell me what have i done wrong?

And nothing can go right with me must be that i've been smoking too long

I got opium in my chimney, no other life to choose

Nightmares made of hash dreams, the devil in my shoes

What have I done wrong?

Yeah nothing can go right with me it must be that i've been smoking too
long

When I'm smoking, smoking, put my worries on a shelf

Try not to think about nothing, don't wanna see myself

What have I done wrong?

And nothing can go right with me it must be that I've been smoking too
long

In this blues i'm singing, there's a lesson to be learned

You go round smoking, you're gonna get burned

Fuck me what have I done wrong?

Nothing can go right with me must be that i've been smoking
Too long, too long
